A very (very) **WARM** welcome to the **HOT HOT HOT** fourth edition of the **MILVERTON RAG** – the magazine created BY the children of Milverton Primary School FOR the children of Milverton Primary School.

We have a growing team of reporters involved in the RAG and we are very excited to bring you this **SUMMER SIZZLER** of a RAG to help you through the long summer ahead . There is lots inside to keep you interested, ideas, stories, information, puzzles, cartoons, funnies and much, much more...So come on and dive in...

****Anyone interested in joining the RAG team please see me in September ****

For now have a **GREAT SUMMER!** Chief Editor: Samuel Cross

Can you find 10 more Nemo's like this one hiding throughout the RAG?

BORED this Summer? DON'T BE!

Elliot has the answers...

Victoria park is a brilliant place to have a picnic, bike ride or play about. I recommend it because it has a good play-ground and has a grassy area to play tag or a general run around. Bikes or scooters would be good to take as the grassy area has a path round it which is perfect to ride on as it is not bumpy and is shaded by some trees.

the Herbert in Coventry is a really good place to visit. As well as special events, the art gallery and arts and crafts rooms are a joy to be in. Look out for special events or new galleries, because they each have a really fun topic and the way they present each one is so mind-blowing and different each time.

Draycote Water is a very nice reservoir that has a long path all the way round the outside - it is about 5 miles long! You could take scooters or bikes instead of walking. You can watch people sail boats on the lake!

Packwood House is a historical house near to Leamington Spa. It has trails to explore, trees to climb and rooms in the house to see. I like playing in between the Yew trees in the garden - particularly hide and seek!

Umberslade Adventure Playground is an ideal place for a family day out. It has many good activities to do including archery, zip lining, tree climbing and a ropes course. A picnic will make your day out even better!

MAXIM & WILL'S TOP 10 CHART FOR — "Songs for the Summer"

- | | | | |
|---|---|----|---|
| 1 | <i>One Kiss</i> by Calvin Harris & Dua Lipa | 6 | <i>Whatever It Takes</i> by Imagine Dragons |
| 2 | <i>Solo</i> by Clean Bandit Featuring Demi Lovato | 7 | <i>In My Blood</i> by Shawn Mendes |
| 3 | <i>No Tears Left To Cry</i> by Ariana Grande | 8 | <i>Youngblood</i> by 5 Seconds Of Summer |
| 4 | <i>Girls Like You</i> by Maroon 5 Featuring Cardi B | 9 | <i>Sad!</i> by XXXTENTACION |
| 5 | <i>I Like It</i> by Cardi B, Bad Bunny & J Balvin | 10 | <i>Better Now</i> by Post Malone |

Like sums? Sam has created an impossibly long sum to keep you busy all summer long!

Can you find the value of ■, ▲, ● in order to find the final value of ◆?

$$2+3+4-2 \times 3 \div 7+9-2+10-10 \times 10-1+3 \div 2-1 \times 2-21+103-51 \times 2+299-62 \times 2+1003-901+72 \div 2+15= \blacksquare$$

$$\blacksquare+72 \times 10+65-5+36 \div 2+\blacksquare-15+999 \div 3-598+178-\blacksquare \times 5+691-5+1 \div 2+36+293-90 \times 2= \blacktriangle$$

$$\blacksquare+\blacktriangle+551-49+13 \times 2-56-\blacktriangle+\blacksquare-210+48+7 \div 30-97 \div 100 \times \blacktriangle-\blacksquare-9 \div 20-9 \div 90 \times 2= \bullet$$

$$\blacktriangle+\blacksquare-\bullet \times 2-38 \div 2+\blacksquare-69 \div 500 \times 11-1 \div 60-2= \blacklozenge$$

Know anything about science? Here's some facts about The Black Hole from Alex!

Black Holes affect time
They can be infinitely big

The nearest black hole to the Earth is 1,600 light years away

Event horizon is a region in spacetime beyond which events cannot affect an outside observer.

There is a massive black hole at the center of the Milky Way galaxy

Black holes eventually evaporate

Black holes are not infinitely small

Black holes are not funnel-shaped; they are spheres

Black holes spin

Things get weird when they get near a black hole

Getting near a black hole can kill you in horrible

Black holes are not always black

Black holes aren't necessarily only destructive

Black holes can get really big

There are different kinds of black holes

It was not Albert Einstein that discovered black holes

Black holes can be very dense

Black holes are noisy

Nothing can escape the pull of a black hole

Black holes might create elements that make life possible

Black holes do not only swallow but also spit

Any matter can become a black hole

The laws of physics break down at the center of a black hole

There is no tunnel at the center of a black hole

Black holes determine the number of stars

JOKES. CAN YOU GUESS WHICH 6 ARE FROM TEACHERS, AND WHICH TEACHER? (Answers below from LOLA)

2. Where do sharks go on holiday?

Finland!

1. How much does it cost to go to see a sports match at Hogwarts?

A QUIDditch!

3. How do you get 4000 pikachús on a bus?

Pok-em-on!

ACHOO!!!

4. How do you prevent a summer cold?

Catch it in the winter!

5. What is yellow and dangerous?

Shark Infested custard!

6. What lion doesn't roar?

A Dandylion

7. What is the best day to go to the beach?

SUNday!

HaHaHa

8. What do you call a French shoemaker?

Philippe Phloppe!

9. What do you call a 3 legged donkey?

A Wonkey!

10. Why don't you give Elsa a balloon?

Because she'll Let it Go!

11. What do you call witches who live at the beach?

Sandwiches!

Answers: 1. Mrs Tribe-Phillips. 2. Mrs Tribe-Phillips. 3. Mrs Tribe-Phillips. 4. Mrs Jackson. 5. Mrs Nolan. 6. Mrs Nolan. 7. Mrs Belmeger. 8. Mr Fisher.

HARRY'S CRAZY "SUMMER DESTINATION" ANAGRAMS. WORK OUT THE PLACE AND THEN MATCH IT TO ITS FLAG!

1. Find ARAB BODS in the Caribbean
2. Sheila and Bruce live in ASIA ULTRA
3. I sphynx I know where GYP ET is!
4. ACE MIRA can be seen in 50 states - or is it 52?
5. AH FRACIOUS! It's a long walk to Freedom!

ANSWERS: 1 - BARBADOS. 2 - AUSTRALIA. 3 - EGYPT. 4 - AMERICA. 5 - SOUTH AFRICA

JAKE SAYS 'LOOK UP!'

Have you **LOOKED UP** recently and noticed the **biggest passenger aircraft** flying in the sky over Leamington? The Airbus A380 is a double-deck, wide-body, four-engine jet airliner. It is the **world's largest passenger airline**, many airports have upgraded their facilities to accommodate it because of its size. In May 2017, this aircraft started flying into Birmingham airport, you can often see it **flying over our Milverton sky's!**

The Emirates' airline operate the flight between Birmingham, and Dubai. It **flies over Leamington everyday** shortly before it lands at Birmingham airport at 11:25am. The outbound flight departs from Birmingham at 13:30, keep an eye out!

As the school holidays are approaching, you could also get a **cool view of the runway** at Birmingham airport, from **Sheldon Country Park** (postcode B26 3TU). The planes fly **directly above your head** before they land on the runway which is in full view! **It's a great day out if you love planes!** You can even get there by train from Leamington station to Manston Green (change at Birmingham International).

See my photo to see how close you get to the landing planes!

Lovin' Your BONES - Ethan gives us the lo-down

The skeleton can be divided into two parts known as axial and the appendicular. The axial skeleton consists of the central core of the skull, spine and ribs whilst the appendicular is composed of the arms and legs.

How are bones formed?

Bones are formed by the ossification of cartilage.

What this really means is all bones start off as cartilage (normally in the womb) and they gradually turn to hard bone (ossification) over a period of years.

Calcium is needed for strong bone growth.

What is the function of the skeleton?

It provides protection to the major organs in particular the chest and rib cage.

Muscles attach to bones to enable movement.

Production of red blood cells within the bone marrow (a spongy substance in found in the cavities of long bones).

Red blood cells carry oxygen around the body which is important in the production of energy.

Introducing the 206 bones of the human body:

Axial and Appendicular Divisions

Axial = 80 bones – Skull – Vertebrae – Ribs and Sternum – Auditory ossicles – Hyoid

Appendicular = 126

Upper = 64 • Pectoral Girdle • Arms and Legs

Lower = 62 • Pelvic girdle • Legs and feet

Axial skeleton

Skull (cephalic region) = 22 bones

Cranial = 8 – Frontal (1) – Occipital (1) – Ethmoid (1) – Sphenoid (1) – Parietal (2) – Temporal (2)

Facial = 14 – Vomer (1) Mandible (1) Maxillae (2) Zygomatic (2) Nasal (2) Nasal Concha(2) Lacrimal (2) Palatine (2)

Vertebral column = 26 bones – Cervical (7) Thoracic (12) Lumbar (5) Sacrum (1) Coccyx (1)

Ribs and Sternum = 25 bones • 12 pairs of ribs • 1 sternum

Auditory ossicles and Hyoid = Auditory ossicles (6) – Malleus (2) – Incus (2) – Stapes (2) • Hyoid (1)

Appendicular = 126 bones

Upper = 64

Pectoral girdle • Scapula (2) • Clavicle (2)

Arms and hands = Humerus (2) Ulna (2) Radius (2) Carpals (16) Metacarpals (10) Phalanges (28)

Lower = 62

Pelvic girdle • Coxal (2)

Legs and feet - Femur (2) Patella (2) Tibia (2) Fibula (2) Tarsals (14) Metatarsals (10) Phalanges (28)

SOME MINECRAFT TRICKS AND TIPS FROM ALEX

TORCHES CREATE TEMPORARY AIR POCKETS UNDERWATER

TORCHES BREAK STACKS OF SAND AND GRAVEL (EVEN THOUGH THERE NOT A TOOL E.G PICAXE, SHOVEL, HOE)

TORCHES CAN HOLD UP SAND AND GRAVEL (THOUGH THEY'RE TINY).

BLAZES HATE SNOWBALLS (IT REALLY COOLS DOWN THEIR ANGER! AND THEY NEED IT). YOU ONLY NEED TWO BUCKETS OF WATER TO CREATE AN INFINITE WATER SOURCE

WATER MAKES A GOOD LAWN MOWER (IT DESTROYS THE GRASS IN IT'S PATH!!)

SOUL SAND MAKES YOU SINK

MAXIM & WILLS TOP 10 Chart for...

“DEADLIEST ANIMALS”

Would you have guessed that the deadliest animal is actually quite small? It can transmit diseases and therefore is considered one of the deadliest animals in the world.

- | | |
|-----------------|------------------|
| 1. Mosquito | 6. Jellyfish |
| 2. Snake | 7. Lion |
| 3. Shark | 8. Snail |
| 4. Hippopotamus | 9. Komodo dragon |
| 5. Crocodile | 10. Tsetse fly |

Its **WORLD CUP FEVER....**Angus is here to provide some inspiration...

MY DREAM TEAM: ANGUS ATHLETICO FC

Women's Football !!!ENGLAND!!!

- They are called the Lionesses
- They are the first England team to make it into the top 4 over 2 successive tournaments in over 50 years
 - The number of UK female players has grown five times since 1985
 - Women's football was banned in 1921. The ban was lifted in 1971.
- Women footballers don't get paid as much as men - the top earners get around £70,000 a year compared to Wayne Rooney who gets £300,000 a week!
- 2011 was the first season of the Women's Super League – similar to the Premier League in men's football
- The current captain for the English team is Steph Houghton who also plays for and captains Manchester City
- The manager is Phil Neville who played for Manchester United and Everton

SAM SAYS: CAN YOU SPOT THE 10 DIFFERENCES IN THE RAG TEAM?

ERIN has a new PUPPY...

...meet HARLEY

MY NEW PUPPY IS CALLED HARLEY. HE IS A BLACK LABRADOR. WE GOT HIM FROM MY MUM'S FRIENDS' UNCLE WHO HAD TWO BOY PUPPIES LEFT, BUT WHEN WE WENT TO SEE HIM HE ONLY HAD ONE LEFT WHICH WAS HARLEY.

WE GOT HIM THE DAY WE WENT TO SEE HIM AND HE WAS VERY JUMPY AT FIRST.

THEN HE CALMED DOWN. HE HAS SETTLED IN FAST AND SLEEPS WITHOUT CRYING, APART FROM THE SECOND NIGHT WHEN HE CRIED FOR 10 MINUTES.

Toby's Minecraft tips and tricks

For you guys out there who play Minecraft here are a few tips and tricks. If some of you want to get into Minecraft this might get you started off.

1. TNT is an explosive in Minecraft which can be set off with a flint and steel, here's the crafting recipes [Use it on your friends house].

2. The "Nether" and "End" are different dimensions. Both have a portal to get there. One of them you have to make, one of them you have to find. To make the Nether portal you need 16 blocks of Obsidian in a square and a flint and steel to light it. To find the End portal you have to chuck Ender eyes in the air until it goes straight down not in the air and dig down.

3. Cake is one of the foods in Minecraft. It is eaten by placing the cake on the ground and when your hunger bar is down you tap on it to eat a slice. Here's the crafting recipe.

Jake's LESSON on BIRDS:

Birds can be different shapes and sizes, they can all think differently as well, but they are all birds!

The definition of a bird is: a warm-blooded egg-laying vertebrate animal distinguished by the possession of feathers, wings, a beak, and typically by being able to fly

I live near St Mark's church, so I am interested in birds because I often see really big birds flying over my garden

Which birds have I seen on St Mark's church?

The birds I spot most often on the church are wood pigeons, blackbirds and starlings. The pigeon is easy to spot,

because of its familiar cooing sound and its clatter of wings when in flight.

Male blackbirds are black (obviously) with orange-yellow beaks and eye area, but female blackbirds are actually mainly brown in colour (should they be called brownbirds?!) with spots and other patterns on their front. Blackbirds sing with a smooth soft tweeting sound.

Starlings look black when spotted from a distance, but get a look up close and you will notice they have a purple colour too. They are a bit smaller than blackbirds, and like to travel in flocks (big groups of birds). They are a noisy and social bird, making them hard to miss if you see a flock passing through your garden!

smaller than blackbirds, and like to travel in flocks (big groups of birds). They are a noisy and social bird, making them hard to miss if you see a flock passing through your garden!

Birds of Prey: I think I have seen a peregrine falcon landing on the church.

A peregrine falcon is a bird of prey. A bird of prey is one that feeds on animal flesh, has a hooked beak and sharp talons to catch and hold onto its prey. A peregrine falcon has longer wings than other birds as it needs to fly high up so it can see its prey. It has to fly at high speed so it can catch its prey.

Why do birds like churches?

Birds build nests to live in and to lay their eggs in. The most important thing a bird looks for when building a nest is a safe place so they can lay their eggs and care for them, where opportunistic predators, like cats or foxes, can't bother them.

Luckily for birds, they can fly. Most birds make their nests high up in the air simply because it's tough for predators to reach them there.

St Marks church has a tall church spire where birds can be up high. From this tall spot, they can see below them other animals who would like to eat them. So it seems very simple, they feel safe up there!

From the ground, a bird of prey looks like it has bent wings when it is flying, because of its high speed wings. A blackbird and the other birds I have seen at St Mark's church have straighter wings. See the difference in the pictures

PENS READY? IT'S THE WORLD CUP SUMMER COLOUR-ME-IN

MAXIM & WILL'S NEWS: At the moment almost everybody is following the football world cup in Russia. It only happens every 4 years, which makes it so special to watch. We already know for a while, that the next world cup in 2022 will take place in Qatar. And because it is too hot for the players to play in the summer, it will take place in the winter. We will be watching football under the christmas tree! The FIFA, which is the international football association, has just decided that the worldcup in 2026 will take place in 3 different countries: Canada, Mexico and United States. Each of the 3 countries will host some of the games.

World Cup Trophy

Mud + Running + Kids =

REVIEWED
BY HEIDI

In April, a few of us from Milverton School took part in the Mini Military Mud Run near Rugby. You can choose 2km, 5km or 10km. We all ran 5km around a course which was full of different obstacles, across fields full of mud, swamps and muddy water pools.

Our mums and dads took part with us and it was funny seeing them get wet and muddy with us!

I think everybody should have a go because it keeps you fit and you can do it with you family and friends.

My favourite obstacles were crawling through tunnels, walking through swamps and the waterslide at the end.

ELLIOT'S FACT FLOWER: the flower that "GROWS" your knowledge. You never know when this stuff might come in handy!

KNOW YOUR SCIENCE FACTS ABOUT PLANTS? ERIN DOES!

- ◆ 85% of plant life is found in the ocean.
- ◆ Lots of plants are used as dyes.
- ◆ You can colour cloth with stewed onion skin, tea bags or walnut juice.
- ◆ One of the oldest blue dyes comes from a plant called 'woad' that has been used since Neolithic times – more than 6,000 years ago.
- ◆ Brazil is named after a tree.
- ◆ Stress relief can be achieved with chemicals in freshly-cut grass, according to scientists.
- ◆ 70,000 plant species are utilized for medicine.
- ◆ 2009 is the year scientists discovered a plant in the Philippines that is capable of devouring rats.
- ◆ More than 20 percent of the world oxygen is produced in the Amazon Rain forest.
- ◆ Dandelion is completely edible, from the petals to the roots.
- ◆ The first certified botanical garden was founded by Pope Nicholas III in the Vatican City in 1278 AD.
- ◆ Trees are the longest-living organisms on earth.

The **Greatest Showman** is an AMAZING tale written by Bill Condon and Jenny Bicks. This Inspiring tale has very memorable and powerful music. Some of peoples favourite songs are below, which is yours?

- Rewrite The Stars
- A Million Dreams
- This Is Me
- The Greatest Show
- Come Alive

The moral of this story is **“Never judge people by how they look, as everybody has a talent.”** This story also teaches you about how the first circus was made and came to be in a tent. Some of the well known characters in this film are below, who is your favourite?

- Hugh Jackman as **P.T Barnum**
- Zac Efron as **Phillip Carlyle**
- Zendaya Williams as **Anne Wheeler**
- Michelle Williams as **Charity Barnum**
- Keala Settle as **Lettie Lutz.**

REVIEWED BY
LOLA

I think The Greatest Showman was fantastic, full of drama, music, dancing and emotions. I would recommend this movie for people aged 4+. All of my family enjoyed it and I know lots of other people have too. Here are some of quotes from Milverton kids on The Greatest Showman:

Anniyah Y4 “It was really exciting!”

Abhinash Y4 “It is AMAZING because all the characters are really funny!”

Maddie Y4 “The Greatest Showman is the best and I especially LOVE Zendaya Williams”

Lexie Y4 “I like Zendaya on the trapeze's & ropes and seeing what she can do!”

Lola Y4 “The Greatest Showman is an AMAZING movie for all ages 4 and over. It is full of expressions, drama and musicality. It is well and truly...**THE GREATEST SHOW!!!**”
